David Manders
President
Certified Network Group
2984 South Idalia St.
Aurora, CO 80013

Dear David,

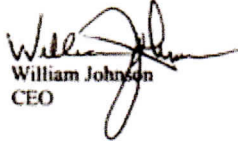

Thank-you for the many years of computer and network support for our very busy cardiology practice.

Your organization is very knowledgeable and responsive to the various computer hardware and software needs of our multi-location cardiology group. You have assisted us in planning and implementing new technology as it becomes cost effective and appropriate to our computer and network needs.

Your group of technicians who are assigned to our organization are always willing to go the extra mile to resolve our computer issues.

I again would like to thank the staff of Certified Network Group for the many years of support and assistance you have provided us.

Sincerely,

William Johnson
CEO
